

5A Pin Man Yi

### A letter for my friend

Dear Mary,

It has been a long time that we haven't met with each other. I am happy to know you here in Hong Kong.

I know you are interesting in studying Chinese History, have you ever thought about visiting the Shanghai museum and see the relics in your own eyes? You know, I have been there last year. There are all together four huge levels and each level is occupied by different exhibits from different period of ancient China.

I hope you can come with me to the Shanghai Museum in this summer holiday. Let's experience the past!

Cheers,

Martina
