

6A Cheng Yee Ting

Which superpower would you most like to have?

If I got superpower, I would like to choose to have the ability to fly.

I would fly around the world and learn more about the world and try to help people in need. I would be a postman so that the post offices would not need to hire a car and a driver to drive and deliver letters. This would reduce carbon emission and the air in the city would be fresher than the days before.

I would also fly in the sky to see the fireworks so that I could see it clearly. I would not have to use the lift anymore because I would fly to my home directly and it would be faster than taking the lift!

Although it is convenient to fly around, there are something bad too! If you went to take a shower, it would be hard to wash the wings and after you take a bath, you would need to wait for a long time for your wings to dry. It is because wet wings could not fly!

In the reality, there isn't any superpower buy everyone could be a hero because all of us can make the world better!
